FINANCIAL REPORT FOR THE YEAR ENDED 31 DECEMBER 2022

Directors' Report	1
Auditor's Independence Declaration	11
Statement of Profit or Loss and Other Comprehensive Income	12
Statement of Financial Position	13
Statement of Changes in Equity	14
Statement of Cash Flows	15
Notes to the Financial Statements	16
Directors' Declaration	32
Independent Auditor's Report	33

The directors present this report on Weld Australia ("the company") for the financial year ended 31 December 2022.

Directors

The names of each person who has been a director during the year and to the date of this report are:

David John Lake	Geoffrey John Crittenden
Prof Madeleine du Toit	Chris Brugeaud
Richard John Fowles	Simon Doe (appointed 7 September 2022)
Adam Furphy	Ben Mitchell (appointed 7 September 2022)
Daniel Hayward	

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Principal activities

The principal activities of the company during the financial year were delivering welding training, certification and consulting services and growing the market for member services.

No significant change in the nature of those activities occurred during the year.

Operating result and review of operations

During 2022 the company concentrated on its major business units of technology consulting, training, and qualification and certification. The company is working with both the public and private sectors to increase national welding capability, including new technologies in training, manufacturing and inspection, and enhanced certification programs for individuals and companies.

Advocating for excellence in the welding industry with Federal and State Governments, other industry groups, major public authorities and private companies is an important part of the company's role

The company continues to focus on the establishment of Advanced Welder Training Centres and the introduction of other new technologies.

With the easing of COVID-19 restrictions, Weld Australia could resume on-site consulting and audit services, faceto-face and practical training and Member events, in addition to online offerings for training, examinations, events and remote delivery of essential engineering services which was implemented during the COVID-19 pandemic.

Short-term objectives and strategies

2022

The company's short-term objectives for 2022 were to:

- Address post-COVID issues and leading the organisation out of the pandemic
- Deploy MEM Learning Resources and maintain growth through investing in resources
- Review membership model
- Diversify and grow Certification services
- Knowledge retention and improvement on succession plan

STRATEGY	ACHIEVEMENTS
People and culture	
Address post-COVID issues	The organisation has adopted a hybrid approach for employees, offering employees to work from home and work in the office. Employees have been supplied with required tools to work from home and are encouraged to continue working from home if unwell. Domestic and international travel and on-site meetings have resumed with minimal disruption.
Education and training	
 Deploy MEM Learning Resources 	Several agreements were concluded with customers for Weld Australia's Metals Engineering and Manufacturing (MEM) learning resources. The first students from TAFE Western Australia have commenced using the MEM in early 2023.
 Invest in resources to maintain growth 	Weld Australia has invested in a new training office in Wollongong and increased staff and in-house capability. Weld Australia has worked with the Department of Justice and Community Safety in Victoria to create a welder
	certification program for prisoners to increase employability when prisoners are released.
Continue with product development	Weld Australia is continuing to develop more Metals Engineering and Manufacturing learning resources and we are creating national welding safety resources in partnership with SafeWork NSW.
Membership	
 Review membership model 	The membership cancellation period changed from 6 months to 3 months. Approved by the Board at the EGM on 7 December 2022.

STRATEGY	ACHIEVEMENTS
Certification services	
 Obtain Joint Accreditation System-Australia and New Zealand (JAS-ANZ) accreditation for ISO 3834 company certification program 	Weld Australia will be applying for ISO 3834 endorsements in March 2023. According to JAS-ANZ's internal endorsement process, this may take 6 months. Once approved, we will apply for accreditation.
 Grow partnership with TÜV Nord Group 	The partnership negotiation process has started and is well underway. A representative from the TÜV Nord Group is visiting Australia in March 2023 to complete an Exchange of Experience (EOE) with the Engineering Managers to become DIN 2303 assessors, which will give companies the ability to work on large-scale, profitable military and defence products and projects.
Engineering	
 Retain and expand core skill sets to support business knowledge 	All engineers had Integrated Management Systems Training and all engineers in the Engineering department are now qualified as Comprehensive International Welding Inspectors. Engineers will undertake further training such as a Governance and Risk Management certificate, expert witness training and a Leadership Skills for Managers and Supervisors course 2023.
Technical and industry networks	
Establish Renewables Power Group	Weld Australia is working to establish a new industry group, which will bring the renewable industry group and the industry's main players together.
Advocacy	
 Gain acceptance for Weld Australia Science, Technoly, Engineering and Maths (STEM) program 	Weld Australia has increased the number of Schools in NSW with Advanced Welding Training Centre to 42; feedback on the program has been excellent. Negotiations are ongoing with other states to start similar programs.
 Increase value of Australian fabrication (Government procurement) 	There has been a substantial shift in government thinking with a much greater emphasis on local fabrication. Representation at Minister Bowen's Job Summit revealed a strong intention to manufacture renewable infrastructure in Australia.
 Increase awareness and resources for fume and electrical safety 	Detailed advice has been published on Fume Safety and a substantial national training project has been commenced under the auspices of the Welding Safety Council.
 Establish an industry environmental impact benchmark 	The first environmental benchmark survey was conducted and published.

Short-term objectives and strategies continued

2023

The company's short-term objectives for 2023 fall into the following Strategic Pillars:

- People and culture
- Education and training
- Membership
- Certification services
- Engineering consulting services
- Technical and industry networks
- Welding Safety Council
- Advocacy

To achieve its short-term objectives, the company has implemented the following strategies:

People and culture

- Maintain salary competitiveness
- Increase leadership training
- Expand mentoring program
- Continue to support further education

Education and training

- Deploy MEM Learning Resources
- Invest in resources to maintain growth
- Grow EDUTECH Simulator and COBOT sales
- Continue with product development

Membership

- Continue to grow membership through improved value proposition
- Increase focus on State Committee activities
- Deliver major conference in conjunction with Centre for Future Work
- Deliver one technical seminar tour

Certification services

- IWP Alternative Route / IWIC Alternative Route
- JAS-ANZ Scheme Endorsement and Accreditation for ISO 3834 Certifications
- Management Systems Certifications + JAS-ANZ Accreditation for Management Systems Certifications
- Grow TUV partnership
- Introduce system for 'Licencing' Supervisors and Inspectors

Engineering

- NATA Accreditation ISO17020
- Lead auditor competency to ISO 9001; 14001; 45001; EN15085; DIN2303
- Increase capability + 2 consultants
- Commission WPS/WPQR internal database

Technical and industry networks

- Establish Technology Transfer Forum
- Establish Renewables Power Group

Welding Safety Council

Create and deliver training media for fume and electrical safety

Advocacy

- Raise awareness of Skills Shortage
- Gain funding for Indigenous and Disadvantaged training programs
- Gain national acceptance and funding for Weld Australia STEM Program
- Guarantee majority percentage for Australian industry in Renewable Energy Program

Long-term objectives and strategies

The company's long-term objectives are articulated in the Strategic Plan.

Our mission is to represent the interests of members and safeguard the public by ensuring the integrity of inservice welds, and to promote the use of best practice technology and quality systems.

Weld Australia delivers value to members by:

- providing a network for the exchange of ideas and the sharing of resources
- being the voice of industry to promote awareness of welding to decision-makers
- offering specialist technical solutions
- facilitating technology transfer from research institutions and overseas markets
- delivering pathways for learning
- standing as an internationally accredited certification body.

To achieve its stated long-term objectives, the company will:

Ensure a financially sustainable future by investing in key drivers for growth

- company and individual certification in domestic and export markets;
- expand training into additive manufacturing and welding of high-tech metals and other materials
- develop our partnership business including sales of high-tech training equipment

Advocate to all levels of government and other peak industry bodies in order to shape the market for member equipment, supply and services

- maintain Australian market share of steel fabrication
- increase quality by expanding the number of companies certified to AS/NZS ISO3834 and enhancing Australian welding standards

Increase member numbers

- simplify and promote the value proposition
- Tailor programs to member segments

Improve the training offering with a focus on the needs of the Australian market

- Develop self-study and blended e-learning training to meet Australian and international standards
- Develop web-based instructor-led group training
- Develop or acquire blended learning courses for new technology

Long-term objectives and strategies continued

Increase participation in certification programs by promoting compliance to key quality and competency standards

- Maximise company certification to AS/NZS ISO3834
- Maximise certification of individual welders to AS/NZS ISO 9606
- Increase participation in certification of International Welding Engineers/Technologists, Supervisors and Inspectors

Expand expertise in Welding Engineering services

- Develop expertise in new joining processes and materials
- Provide integrated solutions to defence, aerospace and infrastructure industries.

Key performance measures

	2023 TARGET	2022 ACTUAL	2022 TARGET	2021 ACTUAL
Qualifications and individual certification				
Total qualifications/certificates issued	700	640	400	593
Training				
New augmented reality simulators supplied	80	68	60	50
Students completing web-based and online training courses	280	312	200	230
Engineering and company certification

Total companies certified to other international schemes	22	16	15	8

Information on directors

David John Lake, Chair

BSc (Hons) Appointed director: 22 May 2013

David is an engineering consultant and undertakes forensic failure analysis and serves as an expert witness to all courts, primarily focusing on material failures but also investigates injuries / accidents with respect to "systems of work". He was for many years a weld inspector and metallurgist, writing and approving weld procedures and specifications in the mining and refining industries. David is Chair of the Audit Finance and Risk Committee and Member of the Remuneration and Nominations Committee of Weld Australia.

Richard John Fowles, Deputy Chair

FIEAust, IWE

Appointed director: 14 May 2014

As a strategic marketing and product manager for BOC Ltd, Richard manages a multi-million-dollar welding equipment and consumables market offer and product management team for Australia and New Zealand. Richard has extensive international experience in workplace health and safety, quality management to ISO 9001, and as an assessor and auditor for AS/NZS ISO 3834 welding management systems.

Geoffrey John Crittenden

BScEng(Hons) FIEAust CPEng FIML CMgr MIMechE CEng MAICD International Welding Engineer Appointed director: 10 December 2019

Geoff is the Chief Executive Officer of Weld Australia. A chartered engineer with over 30 years' experience, Geoff's diverse background spans the not-for-profit, consulting, engineering and healthcare industries. Prior to joining Weld Australia in 2014, Geoff held CEO and senior leadership roles at the Association of Consulting Engineers, Transfield Worley, Cynergy Group and the Risk Management Institution of Australasia. Geoff started his career as an engineer in the British Army.

Prof Madeleine du Toit

BEng, MEng, PhD, IWE Appointed director: 20 May 2015

Madeleine is a leading international welding expert and Professor in the Welding Engineering Research Group at the University of Wollongong. Madeleine represents Weld Australia on a number of committees and currently facilitates the training of International Welding Engineers and International Welding Technologists in Australia.

Information on directors continued

Adam Furphy

BE, FIEAust, CPEng, EngExec Appointed director: 22 May 2018

Adam is the Managing Director of J Furphy & Sons in Shepparton, Victoria which is the parent company for 4 individual businesses/divisions – Furphy Engineering, Furphy Galvanizing, Albury Galvanizing and Geelong Galvanizing servicing fabricators and manufacturers in regional areas from Mt Gambier through to Canberra. Furphy Engineering is a leading designer and manufacturer of stainless steel tanks and pressure vessels and related services. Additional capabilities include laser welding of heat exchange panels, laser cutting and component fabrication. Adam is currently the Chair of the Galvanizing Association of Australia and a member of the LaTrobe University Council.

Daniel Hayward

BEng(Mech), BEng(Metallurgy), MBA, GAICD Appointed director: 22 May 2018

Daniel is currently Integrity Engineering Manager with Santos Limited. He has twenty years' experience in operations, engineering, supply chain and procurement, project management and strategy, principally in the oil and gas and automotive sectors. Dan is passionate about improving Australia's technical and operational expertise and capabilities.

Chris Brugeaud

BEng (Manufacturing), Mechanical Trades Certificate (Precision Manufacturing), Cert III in Engineering-Fabrication trade Appointed director: 26 May 2020

Chris has an Honors degree in Engineering and is trade and project management qualified. Chris has spent the last 15 years at the cutting edge of automation and has had global accountability for high value automation projects in Australia, through Europe, Asia and the Americas. Chris has previously managed the Australian agencies for KUKA, Motoman and Panasonic robots and provides support to the Advanced Robotics Manufacturing Hub as a Digital Capabilities Adviser. Chris has a passion for Australian led technology collaborations that drive industry growth and challenges global norms and benchmarks.

Information on directors continued

Simon Doe

International Welding Engineer (IWE), Bachelor of Engineering (Hons) Metallurgy and Materials Science International Welding Inspector – Basic (IWI-B) Welding Supervisor to AS2214 and AS1796 Certificate 10 Graduate Certificate in Commercialisation Technology Appointed director: 7 September 2022 Simon is the National Facility Manager at ANFF (Australian National Fabrication Facility Limited). As ANFF's National Manager, Simon is responsible for the activities of the multi-million-dollar clean room facility and associated research and development laboratories. Simon is also a Chartered Engineer.

Ben Mitchell

Master of Business Administration (MBA) Marketing, Diploma of Business (Marketing)

Appointed director: 7 September 2022

Ben is the Chief Marketing Officer for K-TIG and is responsible for the company's global marketing strategy, designing and implementing initiatives that build the brand and generate sales opportunities. Ben has over 15 years' experience in all aspects of marketing, strategy, leadership, management, innovation and business acumen and completed his MBA in 2018.

Meetings of Directors

During the financial year four meetings of directors were held. Attendances by each director were as follows:

	ELIGIBLE TO ATTEND	ATTENDED
David John Lake	4	4
Geoffrey John Crittenden	4	4
Prof Madeleine Du Toit	4	4
Richard John Fowles	4	4
Adam Furphy	4	2
Daniel Hayward	4	4
Chris Brugeaud	4	3
Simon Doe (appointed 7 September 2022)	2	2
Ben Mitchell (appointed 7 September 2022)	2	2

Members' Guarantee

Weld Australia is a company limited by guarantee. In the event of the company being wound up, every Member who is current at the time of winding up, or whose Membership ceased within the preceding twelve months, undertakes to contribute to the payment of the debts and liabilities of the company (contracted before the Member ceased to be a Member) and of the costs, charges and expenses of winding up and for the adjustment of the rights of the contributories among themselves, such amount as may be required, not exceeding one hundred dollars (\$100.00). As at 31 December 2022, the total amount that members of the company are liable to contribute if the company is wound up is \$48,900 (2021: \$59,300).

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 11.

Director

Signed in accordance with a resolution of the Board of Directors:

1 Summary of significant accounting policies

The financial statements cover Weld Australia ("the company") as an individual entity, incorporated and domiciled in Australia. The company is a company limited by guarantee.

The functional and presentation currency the Company is Australian dollars.

The financial statements were authorised for issue on 13 April 2023 by the directors of the company.

Basis of preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Simplified Disclosures of the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The company is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied unless stated otherwise.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The amounts presented in the financial statements have been rounded to the nearest dollar.

Accounting policies

(a) Revenue

Revenue is recognised on a basis that reflects the transfer of promised goods or services to customers at an amount that reflects the consideration the company expects to receive in exchange for those goods and services.

Revenue is recognised by applying a five-step model as follows:

- Identify the contract with the customer
- Identify the performance obligations
- Determine the transaction price
- Allocate the transaction price
- Recognise revenue when performance obligations are satisfied.

When the company receives grant revenue it assesses whether the contract is enforceable and has sufficiently specific performance obligations in accordance with AASB 15 *Revenue from Contracts with Customers*. When both of these conditions are satisfied, the company identifies each performance obligation relating to the grant; recognises a contract liability for its obligations under the agreement; and recognises revenue as it satisfies its performance obligations.

1 Summary of significant accounting policies continued

(a) **Revenue** continued

When the contract is not enforceable or does not have sufficiently specific performance obligations, the company recognises the asset received in accordance with the recognition requirements of other applicable accounting standards; recognises related amounts; and recognises income as the difference between the initial carrying amount of the asset and the related amount.

If a contract liability is recognised as a related amount above, the company recognises income when or as it satisfies its obligations under the contract.

Donations and bequests are recognised as revenue when received.

Revenue from the provision of membership subscription is recognised in the period to which it relates upon receipt. Revenue from membership subscriptions received in a financial year relating to the next financial year is deferred and disclosed in the statement of financial position as income in advance.

Revenue from rendering of a service is recognised upon the delivery of the service to the customer.

Interest revenue is recognised using the effective rate method, which for floating rate financial assets is the rate inherent in the instrument.

All revenue is stated net of the amount of goods and services tax (GST).

(b) Inventories

Inventories are measured at the lower of cost and net realisable value.

(c) Leases

Right-of-use assets

At the inception of a lease contract as lessee (other than short-term leases and low-value assets), the company recognises a right-of-use asset and a corresponding lease liability. Initially, the lease liability is measured at the present value of the lease payments still to be paid at the commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the company uses the incremental borrowing rate.

The right-of-use asset comprises the initial measurement of the correspondence lease liability. The subsequent measurement of the right-of-use asset is at cost less accumulated depreciation and impairment.

The right-of-use asset is depreciated over the term of the lease or the useful life of the underlying asset, whichever is the shorter. Where a lease transfers ownership of the underlying asset, or the cost of the right-of-use asset reflects that the company anticipates the exercise of a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

Contracts that are classified as short-term leases and leases of low-value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

1 Summary of significant accounting policies continued

(d) Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated, less, where applicable, accumulated depreciation and impairment losses.

Property, plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present.

Property, plant and equipment that have been acquired at no cost, or for nominal cost are valued at the fair value of the asset at the date it is acquired.

Depreciation

All property, plant and equipment are depreciated on a straight-line basis over the asset's useful life commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

Class of property, plant and equipment	Depreciation Rate
Leasehold improvements	20%
Plant and equipment	15% - 33%
Motor vehicles	25%

The assets' residual values and useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss in the period in which they arise.

(e) Intangible assets

Website

Expenditure on the development of the company's website is initially recognised at cost. It has a finite life and is carried at cost less any accumulated amortisation and impairment losses. The website has an estimated useful life of four years. It is assessed annually for impairment.

Expenditure on the development of the Australian Welder Certification Register (AWCR) is initially recognised at cost. These costs are subject to amortisation once the project reaches completion and is ready for use. It has a finite life and is carried at cost less any accumulated amortisation and impairment losses. The AWCR has an estimated useful life of four years. It is assessed annually for impairment.

Metals Engineering & Manufacturing (MEM) learning resources

Expenditure on the development of the Metals Engineering & Manufacturing (MEM) learning resources is initially recognised at cost. These costs are subject to amortisation once the project reaches completion and is ready for use. It has a finite life and is carried at cost less any accumulated amortisation and impairment losses. The MEM has an estimated useful life of four years. It is assessed annually for impairment.

1 Summary of significant accounting policies continued

(f) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instruments. Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs except where the instrument is classified "at fair value through profit and loss", in which case transaction costs are expensed to profit and loss immediately.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain significant financial components.

Classification and subsequent re-measurement

Financial assets

Financial assets, other than those designated and effective as hedging instruments are subsequently measured at:

- amortised cost,
- fair value through other comprehensive income; or
- fair value through profit or loss

on the basis of the two primary criteria, being:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial asset.

A financial asset is subsequently measured at amortised cost when it meets the following conditions:

- the financial asset is managed solely to collect contractual cash flows; and,
- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset is subsequently measured at fair value through other comprehensive income when it meets the following conditions:

- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates; and
- the business model for managing the financial asset comprises both contractual cash flows collection and the selling of the financial asset.

By default, all other financial assets that do not meet the conditions of amortised cost and the fair value through other comprehensive income's measurement condition are subsequently measured at fair value through profit and loss.

The initial designation of the financial instruments to measure at fair value through profit and loss is a one-time option on initial classification and is irrevocable until the financial asset is derecognised.

Equity instruments

At initial recognition, equity instruments that are not held for trading, are eligible for an irrevocable election to be measured at fair value through other comprehensive income, while the dividend revenue received from these instruments will still be recognised in profit or loss.

1 Summary of significant accounting policies continued

(f) Financial instruments continued

Financial liabilities

Financial liabilities are subsequently measured at:

- amortised cost, using the effective interest method; or
- fair value through the profit or loss

A financial liability is measured at fair value through profit and loss if the financial liability is:

- a contingent consideration of an acquirer in a business combination
- held for trading; or
- initially designated as at fair value through profit or loss.

Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

Impairment

The company recognises a loss allowance for expected credit losses on financial assets that are measured at amortised costs or fair value through other comprehensive income. Loss allowance is not recognised for financial assets measured at fair value through profit or loss, or equity instruments measured at fair value through other comprehensive income.

Expected credit losses are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cash flows that are due and all cash flows expected to be received, all discounted at the original effective interest rate of the financial instrument.

Trade and other receivables

The company has applied a simplified approach in accounting for trade and other receivables and recognises a loss allowance for the amount equal to lifetime credit losses. In measuring the expected credit loss, a provision matrix for trade receivables was used taking into consideration various data including historical experience and external indicators.

Recognition of expected credit losses in financial statements

At each reporting date, the entity recognised the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The carrying amount of financial assets measured at amortised cost includes the loss allowance relating to that asset.

Assets measured at fair value through other comprehensive income are recognised at fair value with changes in fair value recognised in other comprehensive income. An amount in relation to change in credit risk is transferred from other comprehensive income to profit or loss at every reporting period.

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the company no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expire. The difference between the carrying value of the financial liability which is extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

1 Summary of significant accounting policies continued

(g) Impairment of assets

At the end of each reporting period, the company assesses whether there is any indication that an asset may be impaired. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is at a revalued amount in accordance with another Australian Accounting Standard. Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(h) Employee benefits

Short-term employee benefits

Provision is made for the company's obligation for short-term employee benefits. Short-term employee benefits are benefits, other than termination benefits, that are expected to be settled wholly within 12 months after the end of the annual reporting period in which employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the undiscounted amounts expected to be paid when the obligation is settled.

The company's obligation for short-term employee benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

The company classifies employees' annual leave entitlements and long service leave entitlements as other long-term employee benefits as they are not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Provision is made for the company's obligation for other long-term employee benefits, which are measured at the present value of the expected future payments to be made to employees. Upon the re-measurement of obligations for other long-term employee benefits, the net change in the obligation is recognised in profit or loss classified under employee benefits expense.

The company's obligations for long-term employee benefits are presented as non-current liabilities in its statement of financial position, except where the company does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which the obligations are presented as current liabilities.

1 Summary of significant accounting policies continued

(h) Employee benefits continued

Retirement benefit obligation

Defined contribution superannuation benefits

All employees of the company receive defined contribution superannuation entitlements, for which the company pays the superannuation guarantee contribution in accordance with the applicable laws and regulations to the employee's superannuation fund of choice. All contributions in respect of the employee's defined contribution entitlements are recognised as an expense when they become payable. The company's obligation with respect to employees' defined contribution entitlements is limited to its obligation for any unpaid superannuation guarantee contributions at the end of the reporting period. All obligations for unpaid superannuation guarantee contributions are measured at the undiscounted amounts expected to be paid when the obligation is settled and are presented as current liabilities in the company's statement of financial position.

(i) Trade and other payables

Trade and other payables represent the liabilities for goods and services received by the company during the reporting period that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(j) **Provisions**

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(k) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at-call with banks, and other short-term highly liquid investments.

(I) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or GST payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivable or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities, which are recoverable from or payable to the ATO, are presented as operating cash flows included in receipts from members and other sources or payments to suppliers and employees.

(m) Income tax

No provision for income tax has been raised as the company is exempt from income tax under Division 50 of the *Income Tax Assessment Act 1997*.

1 Summary of significant accounting policies continued

(n) Critical accounting estimates and judgments

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the company.

Performance obligations under AASB 15

To identify a performance obligation under AASB 15, management exercises judgement to determine whether the promise is sufficiently specific by taking into account any explicit or implicit conditions, the nature, value, quantity and the period of transfer related to the goods or services.

Lease term and option to extend under AASB 16

The term of a lease is defined as the non-cancellable period of a lease and includes the period of any option which management considers that the company is reasonably certain to exercise.

(o) Comparative figures

Where required by Australian Accounting Standards, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

(p) New accounting standards

New and Amended Accounting Standards Adopted by the Entity

Initial adoption of AASB 1060: General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities

The company has adopted AASB 1060: General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities for the first time this reporting period.

The Standard, which sets out a new separate disclosure Standard to be applied by all entities that are reporting under Tier 2 of the Differential Reporting Framework in *AASB 1054: Application of Tiers of Australian Accounting*, replaces the previous Reduced Disclosure Requirements (RDR) framework. The application of this standard has resulted in new and/or increased disclosures in areas such as audit fees, lease commitments and company details.

NOTE	\$	\$

8 Right-of-use assets

The right-of-use assets comprise the lease of premises at Pymble, NSW and Wollongong, NSW, and leases of office equipment, which are measured in accordance with the company's accounting policy as outlined in Note 1(c).

The former lease of premises at Pymble, NSW (Bridge Street) expired on 31 March 2021. Under the property lease agreement the company was entitled to an incentive of \$271,500 received over the life of the lease as outlined in Note 1(c). reduction of monthly lease payments. The right of use asset and lease liability are disclosed net of incentive. Repayment of the incentive in the event of early termination of lease was not required.

The company relocated to new premises in Pymble, NSW (Ryde Road), lease effective 1 April 2021. The term of the lease is for 7 years expiring 31 March 2028 with an option to renew for a period of 5 years.

Both premises at Pymble NSW are shared with a third party which under agreement reimburses the company for 50% of the property lease payments.

The lease of premises at Wollongong, NSW commenced on 1 May 2022. The term of the lease is for 5 years to 30 April 2027 with an option to renew for a period of 3 years.

The leases of office equipment are each for 3 years.

Provision used during the year	_	(373,354)	
Closing balance as at 31 December 2022	-	219,230	

Provision for employee benefits represents amounts accrued for annual leave and long service leave.

The current portion for this provision includes the total amount accrued for annual leave entitlements and the amounts of accrued long service leave entitlements that have vested due to employees having completed the required period of service. Based on past experience, the company does not expect the full amount of annual leave classified as current liabilities to be settled within the next 12 months. However, these amounts must be classified as current liabilities since the company does not have an unconditional right to defer the settlement of these amounts in the event employees wish to use their leave entitlement.

The non-current portion for this provision includes amounts accrued for long service leave entitlements that have not yet vested in relation to those employees who have not yet completed the required period of service.

The measurement and recognition criteria for employee benefits have been discussed in Note 1(h).

(ii) Other related parties

Other related parties include close family members of key management personnel, and entities that are controlled or jointly controlled by those key management personnel individually or collectively with their close family members.

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

During the year, director Madeleine du Toit provided training services and an intellectual property licence in relation to the delivery of the International Welding Engineer/Technologist course. Transactions were on normal commercial terms and amounted to \$171,704 (2021: \$215,475).

During the year, the company engaged Per Arte Pty Ltd, of which director and Chief Executive Officer Geoff Crittenden is a director, for human resources and recruitment consulting services. Services were provided at normal market rates and amounted to \$174,231 (2021: \$125,794).

During the year, director Simon Doe provided the company with welding examination and marking assistance. Transactions were on normal commercial terms and amounted to \$5,760 (2021: \$0).

	- Lease liability		1,338,450	1,283,841
	- Trade and other payables	11	1,172,562	504,898
	Total financial liabilities	-	2,511,012	1,788,739

Net fair values

The net fair values of financial assets and financial liabilities approximate their recognised carrying values. The aggregate carrying amounts of financial assets and financial liabilities are disclosed in the statement of financial position and in the notes to the financial statements. No financial assets and financial liabilities are readily traded on organised markets in standardised form. Financial assets where the carrying amount exceeds net fair values have not been written down as the company intends to hold these assets to maturity.

15 Events subsequent to reporting date

The directors are not aware of any significant events since the end of the reporting period.

DIRECTORS' DECLARATION FOR THE YEAR ENDED 31 DECEMBER 2022

In accordance with a resolution of the directors of Weld Australia, the directors of the company declare that:

- 1. The financial statements and notes as set out on pages 12 to 31 are in accordance with the Corporations Act 2001 and:
 - (a) comply with Australian Accounting Standards Simplified Disclosures applicable to the company; and
 - (b) give a true and fair view of the financial position of the company as at 31 December 2022 and of its performance for the year ended on that date.
- 2. There are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF WELD AUSTRALIA A.B.N. 69 003 696 526

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Weld Australia (the company), which comprises the statement of financial position as at 31 December 2022, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration.

In our opinion, the accompanying financial report of Weld Australia has been prepared in accordance with *Corporations Act 2001*, including:

- (i). giving a true and fair view of the registered company's financial position as at 31 December 2022 and of its performance for the year then ended; and
- (ii). complying with Australian Accounting Standards AASB 1060: General Purpose Financial Statements Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities and the Corporations Regulations 2001.

Basis of Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Weld Australia, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the company's annual report for the year ended 31 December 2022, but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards – AASB 1060: *General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities* and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

PRINCIPALS Lucas Quinlan CA Glenn McEwen CA

In preparing the financial report, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the
 company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on
 the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast
 significant doubt on the company's ability to continue as a going concern. If we conclude that a material
 uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the
 financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the
 audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause
 the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
